## Warm up – Listing

As an example for a ‘warm up – listing’ I give you here my personal list. It is quickly gathered and relates to people who have inspired and continue to inspire me for my life and work in different ways. Some of these people, I worked with or still do; some of them are contemporary, some of them are connected to different times. In any case, I am happy and grateful to be surrounded by them and to be able to connect to their ways of doing.
